Hispaniola Telecom Partners with SableAssent to provide its Services for Digital Currencies

Embracing new mediums of exchange to empower its customers to reach new levels in Technology

Haiti: Today new partnerships were created to help assist in the improvement of communications, technology, internet access, remittance and community engagement. Hispaniola Telecom is an emerging player in providing Internet, Mobile Communications, Cable TV based in Haiti. With Over 11 Million People in need of sustainable services, Hispaniola Telecom sees the vision by partnering with SableAssent Coin Corporation to provide additional remittance payment options in digital currencies and blockchain technologies.

Additionally, Hispaniola Telecom is looking to educate a global community on emerging technologies and being a leader in their industry. The ability to make our services available is vital to the economic growth of Caribbean people. Our plans include a flat rate with minimal fees that benefit our consumers.

By adding Blockchain Technology and Cryptocurrencies as a payment option, it instantly expands our services to reach a global marketplace.

We feel the partnership with SableAssent will be of great benefit to the people of Haiti and our communities worldwide”.
